pH: 3.62

Alcohol: 13.5%

WINE NOTES

Vintage:

The 2012 vintage of Red wine varietals experienced some outstanding growing conditions this harvest yielding generous amounts of high quality fruit. Moderate weather throughout the growing season has put little pressure on the vines, and provided grapes with well-balanced chemistries. Our Red wine blend displays ripe fruit aromas and flavor, richness, and balanced acidity.

Winemaking:

The wine reflects an artist's palette of various varietals that each contributes a unique flavor component to the finished blend. The base of the blend is Merlot, which provides structure and depth. Some Cabernet Sauvignon for elegant structure and complexity, lingering with a little Petite Verdot for color and flavor. A dash of Petite Sirah was an added component for juicy, fruity flavors which adds richness on the palate.

Winery Notes:

Our wine displays intriguing wild berry and plum flavors, silky tannins, richness and complexity on the palate, and spicy, smoky notes with a lingering finish.

Food Pairing:

Pair with lamb chops grilled with rosemary and thyme, seasonal vegetables and polenta.
